Viper 30

APPLICATIONS

- Shops
- Kitchens
- Bakeries
- Take-aways
- Supermarkets
- Warehouses

Combining high performance with versatility, Viper 30 provides a choice of mounting location, ensuring all application requirements are satisfied.

Fitted with two 15 W lamps, Viper 30 attracts flies into the high voltage grid where they are electrocuted and safely collected in the 2³/₄" deep catch tray. This deep catch tray retains all insects and avoids dead insect fragments from being blown around the area and contaminating food.

The Viper 30 can be wall mounted or suspended from the ceiling allowing for unit placement precisely where needed.

Features and Benefits

- Quick and easy, tool free servicing
- Optional sleeved lamps for added safety in food production areas
- Wall mounted or ceiling suspended installation options
